

November 23, 2025: On Recording the Latest Messages Into Our Home

I am continuing to document that at 10:31 p.m. at night I am still experiencing vehicles driving past my home to constantly drive messages into my house in the name of the President of the United States, a convicted felon, that is convicted of crimes related to covering up his own personal faults at the expenses of other people's lives.

At this moment, I am recording that the spying team is driving the latest message into my home as follows: Place: to appoint (a person) to a post or office (*the President placed him in the Department of Agriculture*).

These are the God's honest recordings of a person that is being held within a false imprisonment in the United States of America by the President of the United States of America for several years now.

Donald Trump became obsessed with my home around late 2021 and has taken up residence as a spying pervert in my life. His criminal enterprise is apparently being sourced and enabled by the United States military itself as it commits treason over the lives of its most holy American citizen.

I have no love for Donald Trump or his team of criminals. He has lied his way into power and continues to deceive himself and the world on a daily basis. Donald is clearly an unstable and miserable person.

I am truly tired of giving that loser any of the attention that he is so desperate to receive every single day of our life. Literally, our entire world has become hostage to one giant toddler that is playing with the United States military as if it is his personal toy box of horrendous torture tools.

This is the state of America: Nazis have taken the government on behalf of foreign powers and American politicians are just actors playing out their parts as are assigned to them from inside of the Pentagon. I guarantee it.
